DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement submitted on January 28, 2002 has been considered by the Examiner and made of record in the application file.

Drawings

3. The drawings are objected to because of the following minor informalities:
 - a) they include captions written in German. The captions must be translated into English;
 - and
 - b) the steps in **figure 9** need to be labeled.
4. Corrected drawing sheets are required in reply to the Office Action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a

Art Unit: 2686

drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the Examiner, the Applicant will be notified and informed of any required corrective action in the next Office Action. If a response to the present Office Action fails to include proper drawing corrections, corrected drawings or arguments therefor, the response can be held **NON-RESPONSIVE** and/or the application could be **ABANDONED** since the corrections to the drawings are no longer held in abeyance.

Specification

5. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.
6. The disclosure is objected to because of the following informality: From page 1 to page 2 of the specification, text appears to be missing.

Appropriate correction is required.

Art Unit: 2686

Claim Objections

7. **Claim 1** is objected to because of the following informality: On **line 12**, replace “(BS)” with --(MS)--. Appropriate correction is required.

8. **Claims 6-13** are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only and cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Allowable Subject Matter

9. **Claims 1-5 and 14** are allowed.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.

Laatu (U.S. Patent # 6,212,380 B1) discloses a method and arrangement for a handover between base station controllers; and

Koivu (U.S. Patent # 6,266,332 B1) discloses a cellular radio system and a base station.
